Let me know what you think... I realized too late that track changes were turned off.

Kris is also reviewing concurrently, so just highlight things that need to be fixed (rather than actually making editorial/grammatical changes in the document).

Deliberative Process / Ex. 5

(note: this version was pulled from the most current one on sharepoint, and so it doesn't have your comment bubbles).

This has my couple of small comment bubbles, in case that helps.

I'm not sure what version you've seen, or if you're referring to the file I (the other Alan) sent Thursday.

Attached is the most recent

I have this file and the paper that Allen Davis sent. Is there something else? If so, please do send. Need to reboot again.

Subject: "protocol-style" PBPK model review

Hi Paul,

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

So far I've used parts of the handbook (review table). I'm also looking through the PKWG folder (selection criteria bits), but everything there looks DRAFT.

Deliberative Process / Ex. 5

I'll try to dice-up these issues a little more using criteria and questions I find on the PKWG folder. If there's another folder, or an ideal PBPK review I should look at as a model, let me know. We may need to resurrect the "putting PBPK/ADME questions into a database" project—probably something to bring-up at the next PKWG meeting.

-Alan
